Premise

Technology is a gift from God to His people on earth. As such it is our duty to use this gift wisely for the advancement of His kingdom and to bring Him glory. Immanuel Lutheran School realizes the blessings our God has given us through technology and we have a commitment to empower our students to use this gift in keeping with our Christian faith. We pray that God will grant us grace and bless our efforts to educate our students in this way.

Technology in our modern world is dynamic and continues to expand at an ever-increasing rate. Immanuel Lutheran School believes that this technology is an important part of every student's life. We further believe that our students must be educated to manage technology according to a Christian perspective and be enabled to adjust to changes in technology as they occur.
